## WHAT?

**A CREDIT UNION is – a Not-For-Profit, member-owned, financial cooperative.**

Earnings are returned to members in the form of fewer and lower fees plus better rates on loans and savings.

**Democratically controlled** by its members. Operated for the purpose of promoting thrift, providing credit at competitive rates, and providing other financial services to its members.

## WHY?

### WHY Join A Credit Union?

Credit Unions are focused on people, not profit.

*It's financially responsible...*

Usually, credit unions offer higher savings rates. Credit unions typically charge lower or reduced fees compared to banks and are known for providing personal service.

*It helps your community...*

Savings go back into the community and help other members get mortgages to buy homes and loans for new cars. They help members grow their savings, pay off debt, and plan for the future.

*They help you broaden your horizons...*

Credit unions finance the dreams of many households. Because of the structure, credit unions can tailor their loans to members to facilitate immediate or long term needs. At MembersFirst Credit Union, we're committed to Helping You Afford Life.
